

Geotechnical Engineering Laboratory

List of Equipments

- Tri-axial test apparatus and digital data
- Model plate load system
- Air compressor
- Acquisition system
- CBR test apparatus
- Automatic compaction test apparatus
- Permeability test apparatus
- Oedometer test apparatus
- Hydraulic jack
- Dynamic cone penetrometer
- Relative density test machine
- Sieve shaker
- Digital Direct shear test
- UCS apparatus
- Constant temperature bath apparatus
- Large size direct shear test
