

Centre for Continuing Education (CCE)

**Dr. B.R. Ambedkar National Institute of Technology
Jalandhar City (Punjab) INDIA**

About Centre for Continuing Education (CCE)

Centre for Continuing Education (CCE) has been established in the Institute to cater the need of the society. The centre will provide a multidisciplinary platform for policy discourse. This will bring researchers, practitioners, professionals and interested members of our community together in order to contribute meaningfully towards ideation & knowledge sharing. The CCE endeavours to foster new relationships and interactions by engaging government agencies, national and international academic institutions, NGOs, industries, and individuals with the aim of upgrading knowledge & skills as well as in building positive attitudes.

The centre is now open for learning of all the citizens of India & abroad who wish to upgrade their professional knowledge and skill sets through a variety of programmes with more emphasis on experiential learning. The aims & objectives of CCE are as under:

1. To conduct multi disciplinary courses on public policy, engineering & technology, entrepreneurship, intellectual property, innovation, management, governance etc.
2. To strengthen the government's capacity to effectively implement policies.
3. To organize management development programmes, FDP, seminars, talks, workshops, conferences.
4. To conduct capacity building programmes in the field of management, engineering, public policy, finance etc.
5. Centre plans to regularly run a long & short duration programmes that would help in developing in-depth capability for the participants from government, civil society, industries and non-profit sectors & private sector.
6. Centre also provides advisory services, consulting services and research.
7. Centre also aims to offer programmes through online mode in near future keeping in mind the changing trends.
8. To provide any other services which deem fit for the development of society.

Messages

Prof Lalit Kumar Awasthi

Director, NIT Jalandhar

NIT, Jalandhar is an Institution of National importance for higher learning, research and training in engineering and technology. As an institute of national importance, the institute has the mandate of quality teaching, learning, and research along with providing training to faculty, staff & students at the national level. Also, in today's fast changing world, we all need to align ourselves and stay updated with the latest technological & management trends. Here the recently established Center for Continuing Education has already geared itself to play a greater role in the industrial and economic progress of the nation by offering opportunities & resources to constantly upgrade knowledge & skills. Promising full support & wishing success to all those associated with the CCE initiative.

Dr. R. K. Garg

Chairman, CCE

It is a matter of pride that NIT, Jalandhar has established a Centre for Continuing Education. The centre will provide a platform where faculty, staff and students of the institute shall work with industry. The centre shall provide short term courses, management development programs & training programs as per the requirements of the industry. The team of the institute is fully competent to offer tailor made programs for the industry. The Centre for Continuing Education shall play a pivotal role in the development of industry at the national level.

Dr S.K. Mishra

Head, CCE

It is a matter of great satisfaction that the Centre of Continuing Education (CCE) has become functional in a record time under the leadership of Honourable Director of the NIT. The CCE team is delighted and highly motivated to provide an open learning platform for the students, faculty, industry professionals from public & private enterprises & others for upgrading their technical & managerial skills through a variety of learning modules that are being offered.

Developing Professionals for Growth

The Centre for Continuing Education fully understands the training requirements of organizations as well as individuals. Therefore it plans to offer a series of programs for the participants that shall impart both the technical as well as the soft skills, thus enhancing their competencies and capabilities fully aligned to the present and future trends and requirements.

Infrastructure & Facilities Available :

1. The world class infrastructure available with the NIT is sure to make learning extremely engaging.
2. Guest house & Hostel facility available during residential programs.
3. The Resource persons and experts delivering the programs are the ones who have years of experience in academia, industry & research.
4. The emphasis is always on the practical aspects so that the knowledge gained may easily be replicated in their respective workplaces.
5. The Certifications thus earned by participants attending the programs carry high recognition & value as the institute enjoys extremely high ratings in India & abroad.
6. All the programs designed and delivered by the CCE would always be in line with the best global & domestic contemporary practices.

About NIT, Jalandhar

Dr B R Ambedkar National Institute of Technology was established in the year 1987 as Regional Engineering College and was given the status of National Institute of Technology (Deemed University) by the Government of India on October 17, 2002 under the aegis of Ministry of Human Resource Development, New Delhi. Now the Ministry of Human Resource Development, Government of India has declared the Institute as ***“Institute of National Importance”*** under the act of Parliament-2007. A large number of reputed Industrial houses in the country visit the Institution and select the final year students as Engineers/ Management Trainees. As one of the National Institutes of Technology (NIT), the Institute has the responsibility of providing high quality education in Engineering, Technology and Sciences to produce competent technical and scientific manpower for the country. The Institute offers BTech, MTech, MSc, MBA and PhD programmes in the several disciplines of Engineering, Technology and Sciences.
