RECENT ADVANCES IN BIOTECHNOLOGY

(icRAB-2022)

2nd-4th December, 2022

(Online Mode)

Organized By

Department of Biotechnology

Department of Chemical Engineering

in association with

Science Technology and Innovation (STI) Hub

Dr B R Ambedkar National Institute of Technology Jalandhar (Punjab)- 144027, INDIA

About The Institute

Dr B R Ambedkar National Institute of Technology is an institution located in northern India under the Ministry of Education, GoI. NITJ, an institute of national importance, was established in the year 1987 as a regional engineering college and offers B.tech. programs in eleven disciplines of Engineering and Technology, MBA, M.Sc. in Chemistry, Physics and Mathematics, M. Tech. and Ph.D. in all disciplines of Science and Engineering.

About Department of Biotechnology

The Department of Biotechnology, NITJ is one of the sixteen departments of the institute. Department was established in the year 2008 and within this short span of time, the department has carved a niche for itself. Biotechnology is well known as an interdisciplinary field which has applications in health, environment, agriculture and various industries. Department strives to achieve excellence in all the spheres of teaching and research to produce engineers and scientists who will contribute for the betterment of the society.

About Department of Chemical Engineering

The Department of Chemical Engineering is one of the well established department of the Institute with state of the art facilities and dedicated faculty members. The department was established in the year 1990 for imparting quality education, training, and research in the field of Chemical Engineering. Further it has well equipped laboratories in the areas of Membrane Technology, Process Intensification, Bioprocess Engineering, Powder Technology, and Advanced Simulation Laboratory.

About STI-HUB

Science Technology and Innovation Hub at Dr B R Ambedkar National Institute of Technology Jalandhar, Punjab is a project funded by the DST-SEED, Govt of India for empowerment of Scheduled Caste/Scheduled Tribe. STI-Hub named SRUSTI (Sustainable Resource Utilization through Scientific and Technological Innovation), aims to bring holistic and sustainable development to the marginalized SC population using scientific intervention. It mainly focusses on technology development along with training, dissemination for sustainable living and generation of employment opportunities.
